Dear [REDACTED]

Thank you very much for helping us to identify and locate persons who may have been administered LSD many years ago without their knowledge or consent. You have saved us many man-hours and have been instrumental in furnishing at least one person information of value to her.

A [REDACTED] is mentioned several times in George White's diary, and since they are not differentiated, it seems likely that they may all refer to you. One of the entries suggests that you may have been the subject of an LSD test at a dinner on [REDACTED]. Judging by your response over the phone, that test apparently fizzled or didn't occur at all. A copy of that page of the diary is attached for your information.

A diary entry for [REDACTED] also seems to concern you and for several reasons is of great interest to us. A copy of that page is also attached, and I would appreciate your studying it carefully to see if you can remember that evening. What does the cryptic reference to [REDACTED] mean? Was that you or another [REDACTED] Did you just stop by? Could your presence in some way have interfered with the LSD experiment planned and apparently underway. [REDACTED] - what does it mean? That same page of the diary contains a name following [REDACTED]. Do you have any idea what that name is? Can you recall the evening, and if so, can you recall a lady being there with a baby? Can you remember who it was? Please try to remember; we would like to contact her.

I read several names to you over the phone, none of which sounded familiar to you. I repeat them here for your further reflection: [REDACTED]

[REDACTED]. These are all people who visited with the Whites much as you did. Should it develop that you do remember any of them, please contact me.

I can be reached by letter sent to the letterhead address, or I may be reached by phone at [REDACTED]. A collect call will be accepted. Once again, I thank you for your cooperation.

Best wishes,

Approved for Release
